

### **Amendments to the Specification**

Please replace the paragraph beginning on Specification page 9, line 10, with the following:

Door 14 has mounted thereon a locking bolt mechanism ~~24~~ 23. Door 14 further includes a dead bolt portion 26. The locking bolt mechanism ~~24~~ 23 and the dead bolt portion 26 are operative to secure the door in position closing opening 18.

Please replace the paragraph beginning on Specification page 17, line 7, with the following:

A pin or shaft 78 can be used to secure the drive ~~shaft~~ cam 40 to the door 14 and secure the retainer 90 to the drive ~~shaft~~ cam 40. The shaft 78 may extend through the retainer 90 and the drive cam 40 and be fastened to the door 14. The shaft may comprise a screw or bolt. A nut 80 and a washer 82 may also be used in the fastening arrangement.
